

NO-FLY ACCORDS – MAY, 2014

WHEREFORE,

having previously determined the personal culpability and liability for crimes against humanity more fully described, *infra*,

pursuant to the judicious standards applicable to each of the undersigned, of those persons duly recorded in Appendix A to this Accord,

it is the purpose and intent of the undersigned Sovereigns of these Accords to promulgate, implement, and enforce the following agreement and orders which have been duly accepted as the law of the land of each of the undersigned Sovereigns.

AND WHEREFORE,

each and every person duly recorded on Appendix A to this Accord has been adjudicated criminally liable by the duly and proper exercise of due process applicable in each of the undersigned Sovereigns for active or conspiratorial participation in one or more of the following crimes against humanity:

- engaged in unprovoked, illegal aggression and foreign orchestrated regime change in Libya and Ukraine resulting in the most extreme sovereign and territorial violations possible, human suffering, sovereign resources plundering, and massive human suffering and killings;
- threatened and attempted to do the same in Syria and Iran;

- engaged in human rights atrocities carried out by the US, the CIA and other agents of the US in suppressing and brutalizing the Syrian, Libyan, and Ukrainian peoples in an attempt to prop up US puppet governments;
- illegally interfered with Russian sovereignty in trade (illegal, unprovoked trade sanctions);
- illegally threatened the sovereignty of Russia and China by attempting to extort the use of petro-dollars for bilateral sovereign trade in which the US is not a party;
- provoked China by building up US and Western bi-lateral military agreements and military presence in Asian countries antagonistic to China;
- politicized and provoked China with US head of state trip to Asia in April, 2014, meeting with only those countries who have active territorial disputes with China;
- illegally threatened Indonesia with manufactured national disasters and genocide;
- engaged in HARRP generated and geoengineered disasters throughout Asia, including the radiation catastrophe at Fukushima, Japan;
- developed and implementing UN Agenda 21, including mass depopulation agendas designed to reduce world population via genocidal programs by levels of over 85% of the world population;
- engaged in the intentional worldwide atmospheric distribution of depleted uranium to the enduring and lethal detriment to life everywhere on this planet;

**THEREFORE, IT IS HEREBY AGREED AND ORDERED BY ALL
UNDERSIGNED SOVERIEGNS THAT:**

1. Those parties duly recorded in Appendix A to this Accord are hereby precluded from ingress and egress upon land, air, or sea regarding every territorial jurisdiction of each of the undersigned Sovereigns.
2. Furthermore, each act of ingress and egress described in number 1, above, shall be a felonious offense punishable by fines according to the jurisprudence of the undersigned Sovereign, and/or imprisonment with an incarceration between one and five years at the discretion of the jurisprudence of the undersigned Sovereign.
3. Upon probable cause of any violations of number 1, above, each undersigned Sovereign is both authorized and has a duty to immediately apprehend the suspected offender(s) and detain them, and subject them to criminal proceedings for violation of this Accord pursuant to the jurisprudence of the State upon which the alleged violation of these Accords has taken place.
4. Each of the undersigned Sovereigns agree to reasonably coordinate their sovereign resources to effectuate the apprehension, detainment, and prosecution of all persons recorded in Appendix A of this Accord who ingresses or egresses the jurisdictional territory of an undersigned Sovereign, after having been served, or otherwise being reasonably on notice, of the agreement and orders of these Accords.
5. Each of the undersigned Sovereigns will make their sovereign resources reasonably available for the apprehension of all persons duly recorded in Appendix A to this Accord, of whom a duly issued arrest warrant has been issued by a court of competent jurisdiction to face charges or suffer the consequences of penalties for crimes against humanity.

APPENDIX C – APPLICABLE LAW UNDER PUBLIC AND PRIVATE INTERNATIONAL LAW

– An Opinion by Judge Silvercloud Musafir, Native American Law & Justice Center, USA)

HISTORY AND BACKGROUND

The concept of a sovereign nation-state began at the **Peace of Westphalia in 1648** when a major truncation between Church and State set into motion a series of highly dramatic political, social and economic events in the newly conceptualized nation-state governments within their borders, and their relations with one another across their borders, all over the world following colonization by the European powers.

European laws found their way into these colonies although public and private international law required the colonizer to recognize the customs, laws, mores and traditions of these new territories who were becoming colonies without their consent and understanding.

America drew up the first public international law in 1863, called the **Lieber Code**, to deal with Civil War atrocities under the crimes against humanity standard. This became a sort of a template to deal with other sovereign nation-states which went beyond the limits of human dignity and decency, morals and ethics, law, order and justice. Fraud is a crime. It has to be dealt with as an atrocity against mankind, too, especially when unremitting and unbridled manipulation is used in financial markets with the United States occupying the leading edge while other enslaved sovereign nation-states are summarily forced into the bleeding edge.

THE LAW DEVELOPS

In the years that followed, other sovereign nation-states subscribed to limitations of their conduct, and numerous other treaties and bodies were created to regulate the conduct of states towards one another in terms of these treaties, including, but not limited to, the **Permanent Court of Arbitration in 1899, the Hague and Geneva Conventions in 1864, International Court of Justice in 1921; the Genocide Convention, and the International Criminal Court in the late 1990s**. Because international law is a relatively new area of law its development and propriety in applicable areas are often subject to dispute.

Under **Article 38** of the Statute of the International Court of Justice, public international law has three principal sources: **international treaties, custom, and general principles of law. In addition, judicial decisions and teachings** may be applied as "subsidiary means for the determination of rules of law". A totality of juridical contours to arrive at a just, lasting, and viable decision in the interest of justice.

PRESENT DAY SCENARIO

The United States of America has arrogated to itself the role of global policeman. It has interfered in Libya, Egypt, Syria, Iran, Yemen, North Korea, Russia, Ukraine, and several other countries in its attempt to maintain its superpower status *without* the consent of these sovereign nation-states. This is totally *ultra vires* mutually agreed upon **treaty** clauses and terms. There is always an implicit threat of aggression sewn into the treaty to benefit the United States only.

The United States of America has unleashed a fractional banking system upon the global financial system following the **Bretton-Woods Agreement** in New Hampshire in 1945 after World War Two. The printing of counterfeit dollars *ultra vires* the United States Constitution has become the norm. The Constitution prohibits the emitting of "bills of credit" (paper money) except for coinage in gold and silver. See **Article 1, Section 8, Clause 5, and Article 1, Section 10, Clause 1. U.S. Constitution.** It is technically called "Quantitative Easing" which really means unlimited, unbridled, and unceasing printing of paper money.

There has been no constitutional amendment to this constitutional clause except for the passage of the **Federal Reserve Act in 1913** to create an international private bank under the misnomer "Federal Reserve Bank." It was easier and less cumbersome to enact a law than to muster and marshal the support of all the States of the Union to effectuate constitutional amendment as required under **Article V** of the U.S. Constitution.

A law student once challenged the Federal Reserve Board (The Fed) to disclose its decision-making policies under the Freedom of Information Act. A federal court found in favor of The Fed by granting it the privilege of confidentiality necessary for the US financial markets to prevent being compromised or threatened through subterfuge. *Merrill v. Federal Open Market Committee*, 565 F.2d 778 (1977)

The United States of America has created, sustained, maintained and perpetrated international fraud within its borders and outside its borders through various officials working clandestinely and covertly with other banking cartels in Europe, Australasia, South America, and Asia. When any sovereign nation-state opposes its policies, war is usually threatened, and in some cases unleashed like in Iraq since the sacking of the Mossaddegh administration in the 1950s when Shah Pahlavi was installed into a position

of power to consort with American policies while the USA maintained a permanent station in the Middle East to help the fledgling nation-state of Israel formed in 1948. The Ayatollah Khomeini movement upstaged the Shah who fled to the USA, and shortly thereafter died. The same fate awaited deposed-President Ferdinand Marcos of the Philippines who fled to Hawaii.

The United States of America has violated every treaty it entered into with other countries with impunity just like it did with its own Aboriginal Americans using “manifest destiny” as its justification. More treaties were broken than concluded.

Article 31(1) of the Vienna Convention of Treaties writes on the topic of interpretation that:

"A treaty shall be interpreted in good faith in accordance with the ordinary meaning to be given to the terms of the treaty in their context and in the light of its object and purpose."

The purpose of a treaty is to maintain the principle *pacta sunt servanda* – a promise is to be kept and not to be broken. The USA pays lip service to these first principles of law while telling the whole world that it is the bastion of the rule of law. Its weapons of mass distractions using the media is legion. It has no competition in this endeavor. It leads the pack using the **First Amendment, U.S. Constitution** (freedom of speech, association and the press) to the hilt.

RATIONALE TO ORDER THE UNITED STATES TO CEASE AND DESIST FRO PERPETRATING FINANCIAL FRAUD.

1. The issue of United States dollar as a global currency forced upon sovereign nation-states is mentioned in none of the treaties entered into between other sovereign nation-states and the United States. What is not contemplated, expressed, or stated in a compact, agreement, contract, covenant or treaty is considered out of bounds and unlawful (*expressio unius est exclusio alterius*).

Some scholars argue that the United States of America was silent about the US dollar in these treaties by taking advantage of the subtlety *inter arma enim silent leges* – the law falls mute in the clash of arms. A subtle warning by the United States to other sovereign nation-states that war will become necessary if they wish and desire to disagree. Might is right. It has worked very well for the bullying stance of the United States in every corner of the globe. No country is spared the tentacles of the mighty United States, and its almighty dollar.

2. Allowing American officials to travel by air, sea or overland to other countries in their quest to establish the strength of the US dollar is hazardous and dangerous to the economic well-being of other sovereign nation-states.. Even telecommunications using satellites to effectuate electronic money transfers is ominous and devastating to other countries who customarily have used other means of exchange instead of paper money. Their efforts to revert to their customs and traditions is threatened by the US dollar, and accompanying economic sanctions usually by destabilizing its currency, and then causing havoc to its economy.

3. The United States cannot and should not have the monopoly because it says it practices anti-trust laws in its own country. It makes the laws with one hand, and breaks them with the other. It believes there is no power on earth to stop its excesses. It cleverly and cunningly uses the **Necessary and Proper Clause (Article 1, section 8, clause 18)** and the **Needful Rules and Regulations Clause (Article IV, section 3, clause 2, of the U.S. Constitution)**, for example, to make any rule or regulation when it becomes bothersome and cumbersome for Congress to pass a law with its first and second readings and committees, votes and vetoes. With these rules and regulations in place, the United States government is able to do whatever wishes and desires under the cloak of secrecy. When questioned, it has a standard answer that defies law, order, and justice – ***national security !*** It even operates a 24-hour secret court called the FISA Court (Foreign Intelligence Surveillance Act) manned by judges willing to sign a subpoena at the drop of a pin based on an affidavit by any law enforcement agent or agency claiming a breach to national security.

4. This international bullying using financial conduits, conspiracies, cartels and cabals must be stopped by participating countries whose sovereign airspace is constantly being violated when these officials fly in and out unabated and unchecked.

5. Public and private international law thus becomes the only necessary tool to prevent and stop atrocities against mankind when financial manipulations impose another form of economic slavery upon sovereign nation-states with the perpetration of deception, deceitfulness, outright dishonesty and blatant theft which are perfect are examples of fraud that qualify for criminal sanctions.

6. Plaintiff sovereign nation-states must be unflinching in their effort to do everything within their power to safeguard their airspace from such wanton acts by the United States. Lack of preventive measures by these sovereign nation-states will impel the United States to disregard public and private international law. The plaintiff sovereign nation-states have the power and authority to raise the standard of decency, morality and civilized behavior by setting an example with the NO FLY ORDER.

LAWS VIOLATED BY THE UNITED STATES OF AMERICA THAT REQUIRES A NO-FLY ORDER AND JUDGMENT AGAINST THE UNITED STATES AND ITS OFFICIALS, BOTH ELECTED AND UNDERCOVER.

- ~ Aldrich-Vreeland Act of 1908
- ~ Federal Reserve Act of 1913 (HR vote: 285/85, Senate vote: 54/34)
- ~ Gold Reserve Act of 1934 (Sec. 10, 31 U.S.C. 822 (b) – amended by striking out “stabilizing the exchange value of the dollar . . .)
