The Brits have been brainwashing the world to fight their wars and keep the royals and banksters rich for over 100 years.

Hello Everyone,

Just letting you know I am not just sitting on my ass during this break, but I'm working my tail off regarding Obamas' attempts to breach and infiltrate the Eastern-Asian Academic System with his man wife Michael/Michelle under the pretense of the [Obama Foundation Asia- Pacific Leadership Development Program](#) and [Girls Opportunity Alliance](#) , as well as digging into [Coronavirus](#) (aka CoVid-19) origins, bio-labs producers, and vaccine distributors, etc.

As you all know by now, the [Coronavirus](#) is not normal, but it's a bioengineered weapon, which was created by a multitude of the Queen's United Kingdom nefarious groups:

The British Crown and the C.I.A. teamed up treasonously via QinetiQ Group Plc controlled by the Monarch Lord Pirbright (Rothschild) and his banker cousins at N.M. Rothschild & Co. were godfathers of the 2nd Boer War concentration camps (1899-1902) to drive the French, Dutch and Germans out of South Africa.

New Evidence: Leading London Jews were running the first modern war concentration camps where over 60,000 whites and blacks died, including more than 14,000 mostly white children who were subjected to Burroughs Wellcome & Co. (now Wellcome Trust—Coronavirus funder and GlaxoSmithKline) vaccine experiments. These Privy Council and Parliamentary records have been discovered after finding missing documents.

It appears the Queen herself has something to prove to President Trump. Of course, President Trump is showing the [Nazi Khazarian Empire Battenberg Family](#) member, which end is up—despite the fact that the English Monarchy has great holdings in the [United States Corporation](#)—which has literally, along with its European associates, been robbing the US populace blind, that it is time to set the record straight.

So you just might see that this is a battle between the Queen and President Trump playing out now with the Coronavirus being the false flag, which is needed for travel bans, quarantines to protect and distract the global population during covert US Military Operations i.e. [European Defender 20](#) with its 20,000 military troops exercises throughout Europe.

Meanwhile, President Trump will use the U.S. travel bans, massive mandatory quarantines and self-quarantines, as well as other methods being imposed upon the

people by declaring a National Emergency as a screen to hide the covert U.S. military exercises. All the while by finally making his moves to assist the planet in taking back what is rightfully theirs from the Nazi/Kazars.

Do not think for one second there's not a cure for the Coronavirus. It has been out there for a long time with different strains of and vaccines for numerous viral diseases for decades i.e. Flu Strains, SARS, MERS, HIV, etc. When bio-engineering a viral bioweapon the scientists also create an anti-virus solution, which becomes a profitable vaccine and ultimately an amplifier for the viral diseases.

Besides the Queen, you may well know the names of the other people and entities who are involved i.e. George Soros, Bill Gates, DARPA, EU and Big Pharma etc. They should all be indicted and brought forth to justice on numerous charges including MURDER. The families of every person who has passed away due to the Coronavirus should hold those that made it as a bioweapon be held responsible and there should be no exceptions.

It's time to clean our land, our homes and our lives of such harmful garbage and this appears to be President Trumps desire; I pray it is.

I've been sent something to share and after reading it, I see it's along the same line that I've been researching therefore, I ceased my jump into the darkness and put up what I found to be well research and put together ... You will now know who is responsible for the Coronavirus and should be held accountable.

ABSTRACT

The present invention provides a live, attenuated coronavirus comprising a variant replicase gene encoding polyproteins comprising a mutation in one or more of non-structural protein(s) (nsp)-10, nsp-14, nsp-15 or nsp-16. The coronavirus may be used as a vaccine for treating and/or preventing a disease, such as infectious bronchitis, in a subject.

- [The Pirbright Institute](#) is a research institute in Surrey, England, dedicated to the study of infectious diseases of farm animals. It forms part of the UK government's Biotechnology and Biological Sciences Research Council. **Legal status:** Government-funded research institute (registered charity) **Purpose:** Farm animal health and diseases in the UK.
- [Pirbright Institute](#) **The Pirbright Institute** is aware that misinformation regarding the **Institute** and its research is circulating on social media following an outbreak of a new (novel) coronavirus that infects humans in Wuhan, China. These are the facts regarding our coronavirus research and funding.

[Pirbright's livestock coronavirus research – your questions answered](#)

The Pirbright Institute is aware that misinformation regarding the Institute and its research is circulating on social media following an outbreak of a new (novel) coronavirus that infects humans in Wuhan, China. These are the facts regarding our coronavirus research and funding.

The Pirbright Institute carries out research on infectious bronchitis virus (IBV), a coronavirus that infects poultry, and porcine delta-coronavirus that infects pigs. Pirbright does **not** currently work with human coronaviruses. More information on our coronavirus livestock research can be found on our website.

The Institute holds Patent no. 10130701 which covers the development of an attenuated (weakened) form of the coronavirus that could potentially be used as a vaccine to prevent respiratory diseases in birds and other animals. Many vaccines are made in this way, from flu to polio. We have not yet developed an IBV vaccine, but research is ongoing.

The Institute is strategically funded by the Biotechnology and Biological Sciences Research Council, part of UK Research and Innovation (BBSRC UKRI) and also receives funding from many other organizations including the Bill & Melinda Gates Foundation. The patented work was not funded by the Bill & Melinda Gates Foundation. More information on [The Livestock Antibody Hub](#) which is funded by the Bill & Melinda Gates Foundation is available on our website.

The coronavirus first identified in Wuhan, China, earlier this year is a new coronavirus, the seventh coronavirus identified that is able to infect humans. Six other coronaviruses are capable of infecting humans and these can cause diseases which range from mild to severe, and include the common cold, severe acute respiratory syndrome (SARS) and Middle East respiratory syndrome (MERS). The exact origin of the new virus is unknown but initial confirmation shared by China and the World Health Organization (WHO) indicates that this new virus is genetically similar to a SARS-like coronavirus found in bats. The source of the outbreak has yet to be confirmed and investigations are ongoing.

The Pirbright Institute collaborates with scientific institutes and universities around the world to prevent and control livestock diseases and those that can spread from livestock to people, known as zoonoses. Research carried out on viruses and their livestock hosts at Pirbright can inform the development of vaccines for animals and, in the case of zoonotic diseases, potentially prevent and control disease in humans.

[Coronaviruses Research Group](#)

Viruses related to this group: [Infectious bronchitis virus](#) (IBV) is a highly infectious avian pathogen which affects the respiratory tract, gut, kidney and reproductive systems. It belongs to the *Coronavirus* family, genus *Gammacoronavirus* which has a single stranded RNA genome, surrounded by a nucleocapsid and envelope.

Our group Infectious bronchitis is a highly contagious respiratory disease of chickens that can be fatal in young birds due to secondary bacterial infections, and sometimes kidney disease. Infection of egg-layers results in a drop-in egg production. The

disease, which has economic consequences to the poultry industry throughout the world, is caused by infectious bronchitis virus (IBV), a coronavirus.

Our aims The Coronaviruses Group are investigating the potential for genetic manipulation of the IBV genome to rationally attenuate field strains predictably and specifically for vaccine production, including for in ovo vaccination. In order to do this they are identifying the IBV genes involved in virulence, as well as host factors involved in virus replication and viral replication machinery. They are presently modifying the IBV genome using a reverse genetics approach developed by them in order to achieve an optimum balance between attenuation of virulence and capacity to induce immunity.

Bill & Melinda Gates Foundation funds development of Pirbright's Livestock Antibody Hub supporting animal and human health

Researchers from The Pirbright Institute have been awarded US \$5.5 million by the [Bill & Melinda Gates Foundation](#) to establish a Livestock Antibody Hub aimed at improving animal and human health globally. The ambitious program of work will see extensive collaboration between multiple UK research organizations in order to utilize research outcomes in livestock disease and immunology to support human health as part of the 'One Health' agenda.

In Profile: Sir Paul Gordon Fildes, Expert in Biological Warfare

"The Royal Society was the force behind the Puritan Pilgrims in America. At that time, they were very involved in the promotion of what was termed 'In-grafting' which became known as inoculations. During the 1700s the term vaccination would be used, taken from the French for Cow. In-grafting was a procedure by which they took juice from a postal of pox or some such virus or disease, and then placing it in a legion on the arm or other part of the body they would study the results.

This script would be a part of what they termed Enlightenment science. As a religious group they would push for the inclusion of Enlightenment Science into religion which would show itself in the rise of Harvard, specifically it's grouping of scientists allied to the Royal Society that formed Harvard grouping of colleges. The Royal Society is also responsible for the formation of Yale University in 1701 by Elihu Yale, at the behest of Puritan and Harvard medical scientist, Cotton Mather.

Meanwhile, in England, a new biology department is established at Porton Down with Fildes as its head. His initial research focuses on botulism and anthrax. Since 1916 more than 25,000 servicemen took part in tests at Porton Down, in the development of chemical weapons and also protective attire and equipment to prevent exposure. It is the longest-running program of chemical warfare tests on humans in the world.'

Porton is home to two Government facilities, a site of the Ministry of Defense's Defense Science and Technology Laboratory (Dstl) – known for over 100 years as one of the UK's most secretive and controversial military research facilities, occupying 7,000 acres. The laboratory's remit was to conduct research and development regarding chemical weapons agents used by the British armed forces in the First World War, such as chlorine, mustard gas, and phosgene.

When the Second World War ended, the advanced state of German technology regarding the organophosphorous nerve agents, such as tabun, sarin and soman, had surprised the Allies, who were eager to capitalize on it. Subsequent research took the newly discovered German nerve agents as a starting point, and eventually VX nerve agent would be developed at Porton Down in 1952.

In the late 1940s and early 1950s, research and development at Porton Down was aimed at providing Britain with the means to arm itself with a modern nerve agent-based capability and to develop specific means of defense against these agents. Tests were carried out on servicemen to determine the effects of nerve agents on human subjects, with persistent allegations of unethical human experimentation at Porton Down."

BRITISH PLANS TO DEPOPULATE THE WORLD

British company **Pirbright** who owns the virus and the vaccine for the virus. Obviously, a clear case of a man-made biological weaponry created for the sole purpose of killing people – essentially depopulation or what the elites call "eugenics." Our reporting, always backed up by evidence, has shown who the British and x-US intelligence officers are who run these program – corporations like **QinetiQ**. And each time we look closer, we find more British corporations pulling the strings and hiding behind shell corporations who obfuscate the true sources of evil. But we have rooted them out, again and again.

To demonstrate just how blatant these people are with their killing sprees, genocide, and wars, and how proud they are of their accomplishments to kill millions through "germ warfare", we present a few articles taken from the public domain to show that the British brag about being the best at killing with inoculations, vaccinations, and pharmaceutical "wonder drugs" – they hardly hide their crimes at all and often roll them up into a charitable trust so they don't even have to pay taxes through the groups who are giving out "free shots" to the world.

The Germans, Russians, and Japanese were formidable germ warfare experts during WWI and WWII, but the British joined with the Americans and have cornered the market with many patents of man-made viruses that kill. So, we aren't exaggerating at all when we say that we must sever all ties with the United Kingdom, end our Five-Eyes intelligence sharing agreement, end all SERCO contracts and end all associations with any British corporate intelligence or media group. Until we cut the ties with the British monarchy, we still live under the thumb of an archaic system that protects the monarch and its elite aristocracy – including its **Pilgrim Society** branches in America.

Father of British “Germ” Warfare – Lord Fildes

“Sir Paul Gordon Fildes OBE FRS (10 February 1882 – 5 February 1971) was a British pathologist and microbiologist who worked on the development of chemical-biological weaponry at Porton Down during the Second World War. Fildes served as a lieutenant-commander in the Royal Naval Volunteer Reserve, stationed at the Royal Naval Hospital Haslar (1915–19) during the First World War. In 1919 he was made an Officer of the Order of the British Empire. After working at the London Hospital as an Assistant Bacteriologist he moved in 1934 to work at the Middlesex Hospital. He was also elected a Fellow of the Royal Society in 1934.

In 1940 Fildes was put in charge of a newly created department, the Biology Department, Porton (BDP) at Porton Down to study the defensive implications of a bacterial attack and there built up a team of microbiologists to study the use of biological weapons, including anthrax and botulinum toxin. An early project was the creation of a stockpile of a million anthrax impregnated cattle cakes to be used in a possible retaliatory attack. In 1942 it famously carried out tests of an anthrax bio-weapon developed at Porton Down at Gruinard Island. He also assisted with the anthrax strain tests on Gruinard Island, performing necropsies on the bodies of anthrax-exposed sheep, to determine if they had died as a direct result of anthrax poisoning. This work produced the world's first working anthrax bomb in the summer of 1942.

Fildes was known as the “father of germ warfare.”

OUTRAGEOUS CONSPIRACY OF OMISSION: Cecil John Rhodes was appointed to Queen Victoria's Privy Council on Feb. 02, 1895 and rocketed immediately to lead the Council – all before he began raping and pillaging South African diamonds and gold... for the Queen.

Buried in histories of Great Britain is the fact that Cecil J. Rhodes was a LEADING member of Queen Victoria's Privy Council along with Lord Rosebery who played such a formative role in the Pilgrims Society (1909), Empire Press Union (1909) and the

formation of MI6, MI5 and GC&CS renamed GCHQ in 1946 from delegate newspapermen from the Empire.

Even Rhodes' official biography W.T. Stead omits any association between Queen Victoria, the Privy Council and the British South Africa Company.

This omission proves a conspiracy among historians and the Pilgrims Society to buy them off and suppress unflattering truths about their hegemony... that continues to this very day.

History of Biological Warfare

“In the United Kingdom the preoccupation was mainly in withstanding the anticipated conventional bombing attacks that would be unleashed in the event of war with Germany. As tensions increased, Sir Frederick Banting began lobbying the British government to establish a research program into the research and development of biological weapons to effectively deter the Germans from launching a biological attack. Banting proposed a number of innovative schemes for the dissemination of pathogens, including aerial-spray attacks and germs distributed through the mail system.

With the onset of hostilities, the Ministry of Supply finally established a biological weapons program at Porton Down, headed by the microbiologist Paul Fildes. The research was championed by Winston Churchill and soon tularemia, anthrax, brucellosis, and botulism toxins had been effectively weaponized. In particular, Gruinard Island in Scotland, during a series of extensive tests, was contaminated with anthrax for the next 48 years. Although Britain never offensively used the biological weapons it developed, its program was the first to successfully weaponize a variety of deadly pathogens and bring them into industrial production. Other nations, notably France and Japan, had begun their own biological-weapons programs.

When the United States entered the war, mounting British pressure for the creation of a similar research program for an Allied pooling of resources led to the creation of a large industrial complex at Fort Detrick, Maryland in 1942 under the direction of George W. Merck. The biological and chemical weapons developed during that period were tested at the Dugway Proving Grounds in Utah. Soon there were facilities for the mass production of anthrax spores, brucellosis, and botulism toxins, although the war was over before these weapons could be of much operational use.

In Britain, the 1950s saw the weaponization of plague, brucellosis, tularemia and later equine encephalomyelitis and vaccinia viruses. Trial tests at sea were carried out

including Operation Cauldron off Stornoway in 1952. The United States initiated its weaponization efforts with disease vectors in 1953, focused on Plague-fleas, EEE-mosquitoes, and yellow fever – mosquitoes (OJ-AP). However, US medical scientists in occupied Japan undertook extensive research on insect vectors, with the assistance of former Unit 731 staff, as early as 1946. The United States Army Chemical Corps then initiated a crash program to weaponize anthrax (N) in the E61 1/2-lb hour-glass bomblet.

Around 1950 the Chemical Corps also initiated a program to weaponize tularemia (UL). Shortly after the E61/N failed to make standardization, tularemia was standardized in the 3.4" M143 bursting spherical bomblet. This was intended for delivery by the MGM-29 Sergeant missile warhead and could produce 50% infection over a 7-square-mile (18 km²) area. Although tularemia is treatable by antibiotics, treatment does not shorten the course of the disease. US conscientious objectors were used as consenting test subjects for tularemia in a program known as Operation Whitecoat. There were also many unpublicized tests carried out in public places with bio-agent simulants during the Cold War."

Cancer Epidemic Due to The Introduction Of Viruses Through Vaccinations, SV-40 On Trial

This article tells the hidden history of the polio vaccine and the unintended consequences that led pharmaceutical companies to create vaccines that kill.

"Not forgetting they were also aware of the dangers of injecting viruses into humans which they knew was the cause of cancers, tumors and leukemias, again is a clear indication we are not dealing with balanced caring empathetic human beings, we are dealing with paid up puppets of the pharmaceutical corporations, minds that never actually think about the results of their actions, they just keep on going in order their masters make billions in an industry that is self-perpetuating in that it procures more and more customers as more and more parasites and viruses are injected into humanity. This is the real core of the race war; it is the moneylenders of the entire world."

Fort Detrick – US Home of Biological Warfare

"Fort Detrick is a United States Army Medical Command installation located in Frederick, Maryland. Historically, Fort Detrick was the center of the U.S. biological weapons program from 1943 to 1969. Since the discontinuation of that program, it has hosted most elements of the United States biological defense program.

As of the early 2010s, Fort Detrick's 1,200-acre (490 ha) campus supports a multi-governmental community that conducts biomedical research and development, medical materiel management, global medical communications and the study of foreign plant pathogens. It is home to the U.S. Army Medical Research and Materiel Command (USAMRMC), with its bio-defense agency, the U.S. Army Medical Research Institute of

Infectious Diseases (USAMRIID). It also hosts the National Cancer Institute-Frederick (NCI-Frederick) [1] and is home to the National Interagency Confederation for Biological Research (NICBR) [2] and National Interagency Biodefense Campus (NIBC).”

We now have first case confirmation that the BRT (Bio-Resonance Therapy) Healing Computer DESTROYS the Corona Virus.

No need for harmful vaccines. No need for quarantines and isolations. No need to worry.

In the Nick of Time!

To begin with, a huge thank you must go to Walter for spending so much time in re-configuring said Bio-Resonance Feedback Therapy “Healing Computer” technology to include so much more than was initially available.

This computer will be facing an outright onslaught by the Cabal of man-made biological weapons / viruses, etc., in their quest to stay relevant and reduce the world’s population.

Cabal! For your information there is not any virus that cannot be cured with the new BRT “Healing Computer”.
